PAYMENT PROCESSING

Take payments every way you can and make it easy for your client to pay

With AST, it is easy to accept all payment types: mobile devices, EMV, NFC ready devices or virtual and standalone terminals, online shopping, credit cards, and ACH. Collect payments using our secure and reliable technology, available for use anywhere, anytime.

Access all of your reports and data from one location with a single log-in. A financially sound, and globally trusted brand with proven longevity, AST makes sure that your business' finances are tracked and accounted for all the time, anywhere and on any device.

The Complete Solution

AST provides the complete solution for your Point of Sale system. We offer hardware, software, critical accessories as well as a team of specialists to guide you through the process because a complete POS can supercharge your business. Track your profitability with proper inventory control, labor costs, and client profiles. We make it easy for you to meet business specific needs with minimal training. Now you can manage service with consistency, quality, and repeatability of service and outcomes.

Smart Marketing

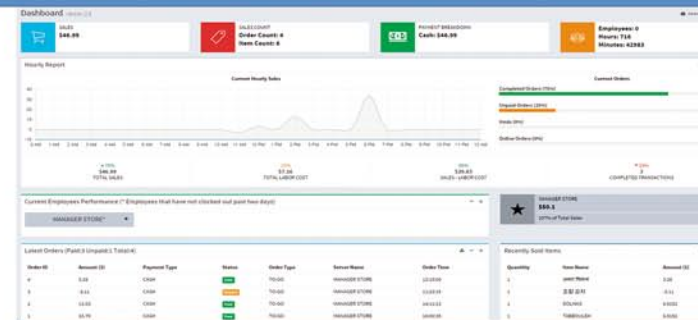

Increase revenues through targeted promotions designed to drive repeat business and get more customers through the door.

Create customer loyalty profiles, allowing you to get to know your customers and their buying habits and trends. Customer profiles enable you to not only enhance your quality of service,

but also to create promotions that target your customers' buying trends. Push and sell more inventory, all at the right time and place. AST is taking marketing to the next level.
