

REDFOX POS

VARIFOX310

The VariFOX 310 is a Fanless All-in-One POS terminal combining the Intel Bay Trail-T CR Z3735F CPU with an optional 10.1" or 14" capacitive touch widescreen display. The splendid, compact design is a space-saving solution which consumes less power while maintaining an efficiency. The IP54 water-resistant touch screen rounds out the design as an ideal solution for retail environments.

The 310 series comes integrated with a 3" USB type printer built-in, further enhancing its compact, space-saving design, while still offering exceptional peripheral connectivity with optional MSR, cash drawer, thermal receipt printer and customer facing display.
